

# **Safety Performance Measure Targets**

## **Resolution for Adoption**

Ron Chicka

February 20 - 21, 2018

# Safety PM Target Requirements

- Federal Law - 23 CFR 490, Subpart B
  - Part of Highway Safety Improvement Program (HSIP)
  - Identifies 5 safety PMs
  - Applies to all public roads
  - Explains how to calculate each PM target
  - State DOTs and MPOs shall establish targets for each PM
  - Sets deadlines for target setting and implementation
- MIC must adopt safety PM targets for WI portions of the MIC area by February 27, 2018

# Background Considerations

- This request is for areas in WI (MN was last month)
- MIC has the option to:
  - Adopt safety PM targets adopted by WI DOT
  - Develop & adopt their own safety PM targets
- MIC has chosen to adopt WI DOT targets

# Safety PM Targets for 2018

- ❖ Traffic fatalities = 556.1
- ❖ Fatality rate = 0.917/100MVMT
- ❖ Serious injuries = 3,023.9
- ❖ Serious injury rate = 4.997/100MVMT
- ❖ Non-motorized fatalities and serious injuries = 343.3

WisDOT established the Target Values - and Feds approved

These targets are in Resolution 18-05
