

OCTOBER 2018 UPDATE

I-35/Bayfront Area Traffic Circulation Modeling and Special Event Traffic Control Plan

Objectives

City of Duluth / DECC / Bentleyville / Pier B

Mitigate and manage traffic congestion during high-turnout special events at the Bayfront Park

MnDOT

Identify potential improvements to sections of the adjacent I-35 corridor, including the entrance and exit ramps at Lake Avenue and 5th Avenue West and frontage roads

Duluth Seaway Port Authority

Separate industrial traffic from commercial/residential traffic in the Rices Point area
