## Transportation Experts Look Ahead to the Future of Travel in the Twin Ports

Every 5 years, the Duluth-Superior Transportation Council makes new transportation plans for the region.

August 8, 2019 by [Viktorija Capek](#)

DULUTH, Minn.- The ongoing conversation about how to improve transportation through the Twin Ports continued this afternoon in an open house at the Duluth Folk School.

The Duluth-Superior Metropolitan Interstate Council invited the public to comment on their draft for a new long-term transportation plan.

The plan looks at how to improve current infrastructure in a sustainable way without increasing taxes and asks how to address the needs of the people already living in the Twin Ports.
