Duluth-Superior Metropolitan Interstate Council  
221 West First Street  
Duluth, MN 55802  
(218) 722-5545  
(800) 232-0707

This project was funded through the Duluth-Superior Metropolitan Interstate Council with funding from the Wisconsin Department of Transportation, Arrowhead Regional Development Commission, and Northwest Regional Planning Commission. Additionally, the preparation of this report has been financed in part through grant(s) from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views of policy of the U.S. Department of Transportation.

# DULUTH-SUPERIOR METROPOLITAN INTERSTATE COUNCIL

## Member and Staff Listing – October 2020

<b>MIC Policy Board</b>	<b>Transportation Advisory Committee</b>
Broc Allen – Douglas Co. Suburban Townships	Krysten Saatela Foster – MnDOT
Ed Anderson – City of Superior Citizen Rep	David Bolf – City of Hermantown
Nick Baker – Douglas County Board ( <i>WI Co-chair</i> )	Jim Foldesi – St. Louis County
Warren Bender – Superior Common Council	Vacant – Bike/Pedestrian Rep
Wayne Boucher – City of Hermantown ( <i>MN Co-Chair</i> )	Jason Jackman – Douglas County Engineering
Chad Ward – City of Proctor	Todd Janigo – City of Superior Engineering
Earl Elde – St. Louis County Suburban Townships	Chris Belden – Duluth Transit Authority
Jenny VanSickle – Superior Common Council	Kris Liljebblad – City of Duluth Planning
Zach Filipovich – Duluth City Council	Maren Webb – MnDOT
Keith Musolf – St. Louis County	Cari Pedersen – City of Duluth Engineering
Bob Quade – City of Rice Lake	Chris Lee – City of Duluth Planning
Rosemary Lear – Douglas County Board	Chris Carlson – City of Superior
Adam Fulton – Duluth Citizen Rep	Kate Ferguson – Duluth Seaway Port Authority (Vice Chair)
Tom Szukis – Duluth Transit Authority	Cindy Voigt – City of Duluth Engineering
Nick Ledin – Superior Common Council	Tom Werner – Duluth Airport Authority
Pete Clark – Douglas County Board	Dena Ryan – WisDOT (Chair)
Sam Pomush – Douglas County Board	Jess Rich – City of Proctor
Janet Kennedy – Duluth City Council	Karl Schuettler – Economic Development
	Vacant – Mobility Challenged
<b>MIC Staff – ARDC</b>	<b>MIC Staff - NWRPC</b>
Ron Chicka, MIC Director	Sheldon Johnson, MIC Deputy Director
Barb Peterson, Administrative Assistant	
James Gittemeier, Principal Planner	
Mike Wenholz, Senior Planner	
Richard Sarran, GIS Specialist	
Rondi Watson, Communications Coordinator

# Chapter 1: Introduction

## Overview

The Transportation Improvement Program (TIP) is prepared annually and contains multi-modal transportation (highway, rail, transit, bicycle, and pedestrian) projects (preliminary engineering, right-of-way, and construction) recommended for federal funding during the next four years in the Duluth-Superior planning area boundary. Also listed are regionally significant projects where federal funds may not be committed. The projects included in each calendar year are aimed at meeting the needs of the region's transportation system and represent a commitment in project funding on the part of the implementing agency.

The Metropolitan Interstate Council (MIC), the body responsible for making transportation policy decisions and for directing the transportation planning and development function within the Duluth/Superior urbanized area, has prepared and adopted a TIP each year since 1976. The TIP effort is conducted in order to specify a coordinated, multi-modal transportation program that includes a full range of transportation improvements being considered during the 2021-2024 process.

Transportation Improvement Program's must be developed for each metropolitan area by the MPO in cooperation with federal, state and local governments and transit operators. The TIP must also comply with regulations issued by the Federal Highway Administration (FHWA) and the Federal Transit Authority (FTA). The TIP may be revised or amended at any time during the program year by action of the MIC. Additionally, all projects represented in the Superior TIP are included, by reference, in the Wisconsin State Transportation Improvement Program (STIP).

Being a bi-state MPO, the MIC has been preparing two separate TIP documents: one for Wisconsin covering projects within the Superior urbanized and planning area and another covering Minnesota projects in the Duluth urbanized area. The time lines and processes between the two states are significantly different enough to warrant the development of separate TIPs. Although the TIPs are prepared separately, participants consider the entire MIC area when project reviews occur. The MIC and its Transportation Advisory Committee (TAC), which includes representatives from Minnesota and Wisconsin, are involved in the development of each TIP. The MIC reviews for approval the TIPs from both states.

The TIP is prepared as a cooperative effort by the MIC, Wisconsin Department of Transportation (WisDOT), transit operators, and the local agencies, which implement the transportation projects solicited for inclusion in the TIP. Implementing agencies submit their listings of approved projects to the MIC to coordinate into a comprehensive listing of major transportation improvements. After approval by the MIC, the TIP is sent to the Wisconsin Department of Transportation, Division of Investment Management, Bureau of Planning and Economic Development for inclusion in the Statewide Transportation Improvement Program (STIP). The Wisconsin and Minnesota TIPs represent an integrated improvement plan for the transportation system of the Duluth/Superior Urbanized Area.

## Metropolitan Planning Organizations

Any urban area with a population of over 50,000 has a designated Metropolitan Planning Organization (MPO) that undertakes the process of developing a Transportation Improvement Program based on transportation needs and with due consideration to comprehensive, long-range land use plans; development objectives; and social, economic, environmental, and energy conservation goals.

The governors of Minnesota and Wisconsin have designated the Arrowhead Regional Development Commission (MN) and the Northwest Regional Planning Commission (WI) as the Metropolitan Planning Organizations (MPO) for the Duluth-Superior urbanized area whom jointly created the Metropolitan Interstate Council to perform the required actions and support of the MPO. It is the policy of the MIC that all transportation related planning is carried out through the 3-C planning process as indicated in this memorandum and other documents.

The MIC involves local units of government in the review of plans and programs. In addition, efforts are made to meet with affected townships and citizens on projects of particular interest in certain geographical areas. Public information meetings, project level committees, and public hearings are utilized to afford citizens of the community an opportunity to comment on and review proposed plans. Further documentation of these activities is included in the MIC's *Public Involvement Plan*.

The federal transportation bill *Fixing America's Surface Transportation Act (FAST Act)* identifies ten planning factors (23 CFR 450.306) that must be considered in the transportation planning process. The processes used to select projects to be programmed through the Superior Urbanized Area TIP is based on these factors:

1. *Support economic vitality* of the metropolitan area, especially by enabling global competitiveness, productivity and efficiency.
2. *Increase safety* of the transportation system for motorized and non-motorized users.
3. *Increase security* of the transportation system for motorized and non-motorized users.
4. *Increase accessibility and mobility* of people and freight.
5. *Protect and enhance the environment*, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns.
6. *Enhance integration and connectivity* of the transportation system, across and between modes, for people and freight.
7. *Promote efficient system management* and operation.
8. *Emphasize preservation* of the existing transportation system.
9. *Improve the resiliency and reliability* of the transportation system and *reduce or mitigate storm water impacts* of surface transportation.
10. *Enhance travel and tourism*.

Consideration of the planning factors by the MIC is reflected in a number of adopted planning documents as well as current and proposed work activities being undertaken by the MIC and the

implementing agencies in the MIC planning area. The MIC's long-range transportation plan serves as a guide to decision-makers in their effort to meet the challenge of preserving and expanding an intermodal transportation system. The study is comprehensive in nature, examining the existing and future conditions for all modes in the transportation system, as well as encompassing all the metropolitan jurisdictions.

### **Duluth-Superior Metropolitan Interstate Council**

The Duluth-Superior Metropolitan Interstate Council was created in July 1975, as a joint committee of the Arrowhead Regional Development Commission (ARDC) and the Northwest Regional Planning Commission (NWRPC). ARDC and NWRPC are multi-county planning and development organizations operating in Minnesota and Wisconsin, respectively.

The MIC consists of 18 delegates representing the metropolitan area of Duluth/Superior. Delegates are local elected officials and concerned citizens selected by their local unit of government. In the transportation planning process, the MIC's role includes:

- Maintaining a certified "3-C" transportation planning process: continuing, cooperative, and comprehensive;
- Coordinating the planning and implementation activities of local, regional, and state transportation agencies;
- Planning for an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation to compete in the global economy, and will move people and goods in an energy efficient manner;
- Undertaking an effective public participation process which fosters meaningful public input to the plan's decisions;
- Providing leadership both in setting transportation policy and in metropolitan system planning; and
- Lending technical support in planning and operations to local governments.

The MIC's primary role is to provide guidance and leadership to the metropolitan transportation community. The MIC realizes the need to focus investment dollars on areas with the highest payback, while at the same time ensuring that transportation policy supports the interest of safety, the conservation of energy, encourages sensible land use, environmental quality, and the interconnection of all modes of travel to create a "seamless" transportation system.

### **Long Range Transportation Plan**

Federal regulations mandate Metropolitan Planning Organizations (MPOs) such as the Duluth-Superior MIC, to develop a TIP for the metropolitan area in cooperation with planning area jurisdictions, transit agencies, and the state. Federal requirements state, "the TIP shall include all transportation projects or identified phases of a project within the metropolitan planning area proposed for federal funding" and "only projects that are consistent with the transportation plan" be included. Therefore, the TIP is the short-range schedule of projects derived from identified needs and improvements recommended from the MPOs Long Range Transportation Plan. Jurisdictions submitting projects for consideration in the TIP utilize the long range plan projects listing and overall goals and strategies. When reviewing proposed TIP projects, the long range plan is used as the backbone for making priorities related to project implementation.

## Chapter 2: Self Certification

### Certification

#### Transportation Planning Process

It is a requirement of the federal government that Metropolitan Planning Organizations (MPOs) annually undertake a self certification of its transportation planning process. This process supports the development of a comprehensive transportation plan and Transportation Improvement Program (TIP) that are consistent with federal regulations and in conformance with all applicable requirements. Each year when the MIC approves the TIP, they also certify that the transportation planning process used in the Duluth-Superior urbanized area is in compliance with federal requirements.

Therefore, in accordance with 23 CFR 450.334(a) the Metropolitan Interstate Council hereby certifies that the metropolitan transportation planning process is addressing major issues facing the metropolitan area and is being conducted in accordance with all applicable requirement of:

1. 23 U.S.C. 134 and 49 U.S.C. 5303, and this subpart;
2. In non-attainment and maintenance areas, Sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 USC 2000d-1) and 49 CFR part 21;
4. 49 USC 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101(b) of the Fixing America's Surface Transportation Act (FAST Act) (P.L. 114-94), and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in the US DOT funded projects;
6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR Parts 27, 37, and 38;
8. The Older Americans Act, as amended (42 U.S.C 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23, U.S.C regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR 27 regarding discrimination against individuals with disabilities.

Furthermore, the MPO certifies that the TIP contains only projects that are consistent with the long range transportation plan for the urbanized area(s).

# Chapter 3: Transportation Planning Process

## Overview

The TIP and selection of projects for inclusion in the TIP are a result of a continuing, comprehensive transportation planning process that is carried out cooperatively by the MPO, State DOT, and local units of government within the urbanized area. The goal of this process is for the TIP to naturally evolve from a process which has identified transportation needs, potential solutions to those needs, and priorities among competing needs.

As explained earlier in this document, the MIC coordinates transportation planning for the Duluth-Superior Urbanized area. The MIC is responsible for developing a list of priority transportation projects seeking federal funding. Federal transportation regulations seek to provide more flexibility to states to direct dollars to the highest priority projects no matter where they are located. In addition, the flexibility extends across modes so as to encourage development of the most efficient and effective solutions to transportation problems no matter what shape those solutions might take.

Throughout the Superior Urbanized area and Wisconsin, the Office of the Commissioner of Railroads (OCR) utilizes federal funds to make rail highway crossing safety projects. WisDOT and FHWA have agreed to include a dollar amount for proposed years within the TIP where projects may occur. In the Superior Urbanized area, a funding level of \$100,000 has been programmed in appropriate calendar years. WisDOT and OCR placeholder projects within the TIP will be administratively changed when actual projects are identified.

## Performance Measures & Asset Management

### Introduction

The FAST ACT requires incorporation of Performance-Based Planning and Programming (PBPP) be used in development of the Metropolitan Planning Organization (MPO) Long-Range Transportation Plans (LRTP) and Transportation Improvement Plans (TIP). The Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning; Final Rule further defined the TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the 23 CFR 490 performance measures targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets (23 CFR 450.326(d)).

The Duluth-Superior Metropolitan Interstate Council will utilize its planning and programming of projects to contribute to the accomplishments of localized and statewide safety performance targets. The approach at this time is to adopt and contribute toward the statewide targets for safety, pavement, bridge, reliability, and freight that WisDOT adopts. This approach seems the most appropriate at this time as setting targets for the Duluth-Superior MPO would be difficult and burdensome. With limited staff and resources, MPO level performance planning and measurements would be difficult. It is unknown at this time how much time staff will be working on Performance-Based Planning and Programming. As our understanding of Performance-Based Planning becomes clearer, the Duluth-Superior MIC may decide at a later time to set its own targets. The Duluth Transit Authority (DTA) has adopted its own transit asset

management plan and targets, instead of state targets. The MIC has adopted the transit targets set by DTA. MIC performance based planning information can be found at <http://dsmic.org/study/performance-measures/>.

23 USC 150: National performance measure goals are:

- **Safety** - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads
- **Infrastructure Condition** - To maintain the highway infrastructure asset system in a state of good repair
- **Congestion Reduction** - To achieve a significant reduction in congestion on the National Highway System
- **System Reliability** - To improve the efficiency of the surface transportation system
- **Freight Movement and Economic Vitality** - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- **Environmental Sustainability** - To enhance the performance of the transportation system while protecting and enhancing the natural environment
- **Reduced Project Delivery Delays** - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices  
<https://www.fhwa.dot.gov/tpm/about/goals.cfm>

MAP-21/Fast Act Performance Measures as established in 49 USC 625 and 23 CFR 490 are:

- **Transit**
  - Rolling Stock: The percentage of revenue vehicles (by type) that exceed the useful life benchmark (ULB).
  - Equipment: The percentage of non-revenue service vehicles (by type) that exceed the ULB.
  - Facilities: The percentage of facilities (by group) that are rated less than 3.0 on the Transit Economic Requirements Model (TERM) Scale.
  - Infrastructure: The percentage of track segments (by mode) that have performance restrictions. Track segments are measured to the nearest 0.01 of a mile.
- **Safety**
  - Number of fatalities
  - Fatalities per 100 million vehicle miles traveled
  - Number of serious injuries
  - Serious injuries per 100 million vehicle miles traveled
  - Number of non-motorized fatalities and non-motorized serious injuries
- **Infrastructure**
  - Percentage of pavements of the Interstate System in Good condition
  - Percentage of pavements of the Interstate System in Poor condition
  - Percentage of pavements of the non-Interstate NHS in Good condition
  - Percentage of pavements of the non-Interstate NHS in Poor condition
  - Percentage of NHS bridges classified as in Good condition
  - Percentage of NHS bridges classified as in Poor condition
- **System Performance on NHS**

- Interstate Travel Time Reliability Measure: Percent of person-miles traveled on the Interstate that are reliable
- Non-Interstate Travel Time Reliability Measure: Percent of person-miles traveled on the non-Interstate NHS that are reliable
- **Freight Movement**
  - Freight Reliability Measure: Truck Travel Time Reliability (TTTR) Index

**Approved Targets for Performance Measures & Asset Management by the MIC Policy Board**

***PM 1 – Safety***

For the Wisconsin portion of the MIC area, the MIC Board passed Resolution #20-12 on October 21, 2020, adopting the WisDOT recommended Highway Safety Improvement Program (HSIP) Performance Measure Targets for 2021 as follows:

Measure	2021 Targets	Prior Year 2020 Targets
Number of Traffic Fatalities	576	564.7
Number of Serious Injuries	2,897.9	2,907.0
Rate of Traffic Fatalities	0.890 per 100 million VMT <i>(Vehicle Miles Traveled)</i>	0.888 per 100 million VMT <i>(Vehicle Miles Traveled)</i>
Rate of Serious Injuries	4.482 per 100 million VMT <i>(Vehicle Miles Traveled)</i>	4.585 per 100 million VMT <i>(Vehicle Miles Traveled)</i>
Number of Non-Motorized Fatalities & Serious Injuries	350.2	344.7

***PM 2 – NHS Pavement and Bridge Condition***

For the Wisconsin portion of the MIC area, the MIC Board passed Resolution #18-15 on June 20, 2018, adopting the WisDOT recommended NHS Pavement and Bridge Condition Performance Targets as follows:

Measure	2-Year Target (2019)	4-Year Target (2021)
Percent of NHS* Bridges by deck area in Good Condition	≥50%	≥50%
Percent of NHS Bridges by deck area in Poor Condition	≤3%	≤3%
Percent of Interstate Pavement in Good Condition	N/A	≥45%
Percent of Interstate Pavement in Poor Condition	N/A	≤5%
Percent of Non-Interstate NHS Pavement in Good Condition	≥20%	≥20%
Percent of Non-Interstate NHS Pavement in Poor Condition	≤12%	≤12%

*\*NHS = National Highway System*

***PM 3 – NHS Performance and Freight Movement on the Interstate System***

For the Wisconsin portion of the MIC area, the MIC Board passed Resolution #18-16 on June 20, 2018, adopting the Wisconsin recommended NHS Performance and Freight Movement on the Interstate System Targets as follows:

Measure	2-Year Target	4-Year Target
Percent of Reliable Person Miles on the Interstate	94%	90%
Percent of Reliable Person Miles Reliable on the Non-Interstate NHS	N/A	86%
Truck Travel Time Reliability Index	1.4	1.6

*\*NHS = National Highway System*

### ***Transit Asset Management Targets***

The MIC Board originally passed Resolution #18-18 on September 19, 2018 adopting the DTA’s Transit Asset Management (TAM) targets for CY 2019. Since that time, the DTA and the MIC annually review TAM baseline and target data. Based on 2020 coordination and consultation with the DTA and its available baseline data, the following 4-year TAM targets for 2021 are made part of the 2021-2024 TIP.

<b>Asset</b>	<b>Baseline (2019 data)</b>	<b>4-Year Target</b>
Rolling Stock	19.5% of active Fixed Route vehicles have met or exceed useful life. 20% of Paratransit vehicles have met or exceed useful life.	<10% of Fixed Route vehicles and <20% of Paratransit vehicles have reached their useful life.
Equipment	42% of equipment (i.e. service vehicles) have reached their useful life.	<35% of equipment (i.e. service vehicles) have reached their useful life.
Parking/Pedestrian Facility	50% of parking /pedestrian facilities have a condition rating below 3 based on FTA’s TERM scale.	<10% of parking/pedestrian facilities have a condition rating below 3 based on FTA’s TERM scale.
Administrative/Maintenance Facility	0% of facility elements within the Administrative and Maintenance Facility have a condition rating below 3.	<20% of facility elements within the Administrative & Maintenance Facility have a condition rating below 3.

Updated targets across all levels will be reviewed and incorporated into the TIP based on release of updated and proposed DTA and WisDOT performance measures and asset management. Any future action necessary by the MIC Policy Board will be amended into the TIP to reflect adopted measures.

### **MPO’s Performance-Based Planning and Programming Processes**

Federal performance-based planning requirements direct metropolitan planning organizations to establish performance measures for safety, pavement, bridge, reliability, freight, CMAQ, and transit asset management and safety. The intent of these provisions is to demonstrate how federally-funded investments are helping to meet national, state and local transportation performance targets. TIP project solicitation and projects within the TIP will work to deliver efforts in meeting the adopted performance based measures. Additionally, the Long Range Transportation Plan (<http://dsmic.org/planning/long-range/>) will provide the overall long term objectives for guidance to help the MPO and Wisconsin Department of Transportation annually set performance measures and future projects to positively influence these measures. MIC performance based planning information can be found at <http://dsmic.org/study/performance-measures/>.

### **Linkage of Investments to Established Performance Measures**

Jurisdictional entities will analyze the adopted performance based measures during consideration of project development. This review will enable engineers and local planning staff opportunities to determine how different aspects of project scoping and development scenarios may positively or negatively impact performance measures locally.

**Future Performance Measure Activities and Coordination**

The MIC will coordinate with WisDOT to ensure consistency and review existing year HSIP Program Targets and other future considered statewide targets. Future calendar year performance targets will be coordinated and executed prior to the end of present year performance targets.

## **Chapter 4: 2021-2024 Transportation Improvement Program for the Superior Urbanized Area**

The 2021-2024 Transportation Improvement Program (TIP) lists priority transportation projects programmed for implementation in the Superior urbanized area. All transportation projects programmed to use Federal Highway Administration (FHWA) or Federal Transit Administration (FTA) funds must first be included in an approved TIP prepared by the Duluth-Superior Metropolitan Interstate Council (MIC). Amendment processes will adhere to guidance language prepared by FHWA and WisDOT and included in the MIC Public Involvement Plan as represented in the appendix. Additionally, the Duluth-Superior Metropolitan Interstate Council, WisDOT and the Duluth Transit Authority hereby agree to the following procedures in advancing projects from the approved TIP for federal funding commitment.

### **Expedited Project Selection Procedures**

1. The first year of the TIP constitutes an agreed-to list of projects for project selection purposes and no further project selection action is required by the MPO for WisDOT or the transit operator to proceed with federal fund commitment;
2. Projects from the second, third or fourth year of the TIP can be advanced by WisDOT or the transit operator for federal fund commitment without further project selection action by the MPO;
3. Concerning the federal funding sources identified for individual projects in the TIP, it is agreed that WisDOT may unilaterally interchange eligible FHWA funding program sources without necessitating an amendment, subject to the project selection authority federal regulations and state local program procedures reserve for the State and the MPO, and subject to reconciliation under item 5;
4. WisDOT can unilaterally interchange FTA Section 5309 and Section 5307 capital funds in urbanized areas between 50,000 and 200,000 population without necessitating a TIP amendment. FTA should be notified of any interchange of funds; and
5. To maintain accountability and fiscal constraint as changes occur during implementation of the TIP, the MPO, WisDOT and the transit operator will monitor projects in the TIP and account for all significant changes in scheduled years and costs in a TIP amendment at the midpoint of the calendar year. (MPOs on a two year TIP update cycle must also commit to truing up the TIP by amendment at the end of the first year along with declaring the second year of the TIP to be the agree to list of projects for the second year of operation).

Projects in the 2021-2024 TIP are listed on the following pages of Chapter Four. Projects were solicited from representative units of government in the urbanized area, the Duluth Transit Authority, and Wisconsin Department of Transportation and are found to be consistent with the findings of the Duluth/Superior Long Range Transportation Plan. WisDOT relies on the public involvement process conducted by the MPO in the development of their TIP to satisfy the Federal Transit Administration program and planning requirements as established for the Section 5307/5309 programs. The *Annual List of Obligated Projects* can be found at [www.dsmic.org](http://www.dsmic.org).

The TIP represents four years of approved federal and state transportation projects, with a local match where required by project funding. Some TIP projects identify jurisdictional projects where state or local funds are the only identified funding source. If TIP approved projects with

only state or local identified funds will now have federal funds attached, an amendment process must be completed.

The TIP may include “illustrative projects”. For purposes of this TIP, illustrative projects are projects not currently funded or may be funded but are outside the 4-year time frame of the TIP. These illustrative projects are not assigned a formal TIP number. Should a sponsoring entity (WisDOT, City of Superior, Douglas County, Transit, or other agency) seek to advance an illustrative project, a formal TIP amendment process would be required as outlined in the MIC Public Involvement Plan (see appendix) in order to advance the project to any of the TIP’s first four years.

**2021-2024 TRANSPORTATION IMPROVEMENT PROJECTS (ROADWAY)**

		Estimated Cost (\$1,000)					Funding Source and Cost Share

## Chapter 5: Financial Capability & Constraint

Fiscal capability and constraint continues to play an important role in the development of the TIP and within *FAST* Act. For purposes of transportation operation and maintenance, the financial plan shall contain system-level estimates of costs and revenue sources that are reasonably expected to be available to adequately operate and maintain the Federal-aid highways (as defined by 23 U.S.C. 101(a)(6)) and public transportation (as defined by title 49 U.S.C. Chapter 53). The solicitation of transportation projects and their inclusion in the TIP has been based on availability of funds awarded or approved for development. As such, the fiscal capacity to fund the identified projects is targeted to specific funding sources whose funding commitment has already been secured. To formally identify these fund sources, the following analysis represents the fiscal capacity.

Historically, federal funding has consistently been available for transportation improvements within the Superior Urbanized Area and these funds have been matched with local or state funds to meet required federal match thresholds. The figure below illustrates federal funding commitments made to the urbanized area over identified TIP cycles.

### Assessment of Fiscal Constraints

The MIC has assessed the ability of the area's highway jurisdictions to meet their financial commitments with regards to the projects being programmed in the TIP while also continuing to fund their ongoing operations and maintenance (O&M). To demonstrate fiscal constraint, project costs were compared with budget data from previous years.

Table 5.1 provides annual average revenue levels for the Superior Area jurisdictions based on the expenditures for years 2016-2019. The O&M column represent all roadway expenditures short of any major rehabilitation (including seal coating, street lighting, snow removal, etc.), while capital outlay represents expenditures related to the rehabilitation or construction of roads.

**Table 5.1: Funding for Streets and Highways in Recent Years (millions of dollars)**

Jurisdictions	2016		2017		2018		2019		Annual Avg	
	O&M	Capital Outlay	O&M	Capital Outlay	O&M	Capital Outlay	O&M	Capital Outlay	O&M	Capital Outlay
WisDOT NW Region	33.4	174.847	33.1	180.329	34.5	171.656	36.9	99.4	49.15	156.558
City of Superior	3.92	1.82	3.94	3.639	4	3.38	4.5	3.8	4.09	3.160
Douglas County	7.6	4.5	8.1	4.5	8.0	3.3	5.3	3.9	7.25	4.05
TOTAL	44.92	181.167	45.14	188.468	46.5	178.336	46.7	107.1	60.84	163.768

These averages are compared against the 2021-2024 TIP project costs in Table 5.2 to show that project costs in the 2021-2024 TIP do not exceed the revenue levels expected for capital outlay, and that jurisdictions will also continue to have the financial capability to carry out general system maintenance beyond the funds directed to those TIP projects.

**Table 5.2: Total Project Costs: 2021-2024 Superior Area TIP (millions of dollars)**

Jurisdiction	2021	2022	2023	2024	Expenses 2021-2024 (4yr total)	Revenue	
						Avg. Expend. (4 years)	
						O&M	Capital Outlay
WisDOT NW Region	15.820	6.1	8.7	2.4	33.02	34.5	156.558
City of Superior	.160	.335	0	1.434	1.929	4.09	3.160
Douglas County	1.668	4.653	3.8	0	10.121	7.25	4.05
TOTAL	\$17.648	\$11.088	\$12.5	\$3.834	\$45.07	\$45.84	\$163.768

The Superior area is allocated STP urban funds (Table 5.3). These federal funds are allocated on a two-year cycle and require a 20 percent local match. Even though the STP allocation guarantees funding, proposed projects must go through the MIC for inclusion of expenditure in the TIP and a formal funding request must be made to WisDOT. Based on past funding allocations and projected allocations from WisDOT, urban funding levels are expected to remain fairly constant during the projected TIP years and local match requirements will be available.

**Table 5.3 - Superior STP Urban Funding Estimates**

Fiscal Year	7/1/19 – 6/30/21		7/1/21 – 6/30/23		7/1/23 – 6/30/25	
	2020	2021	2022	2023	2024	2025
Requested	\$227,817	\$227,817	\$227,817	\$227,817	\$227,817	\$227,817
Projected	\$227,817	\$227,817	\$227,817	\$227,817	\$227,817	\$227,817

The Superior Urbanized area is part of WisDOT’s Northwest Region. The Northwest Region comprises 20 counties in northern Wisconsin. Improvement projects proposed within the urbanized area compete at the region and state level for funding consideration. Selected projects identified in the TIP have been approved using federal and state funding assistance. Costs represented in Chapter 4 for all projects do not include inflationary increases to costs for out-year projects.

Table 5.4 represents funding availability for implementation of projects during all years. As a result, a 2% increase per year (as determined by WisDOT 2022-2024) is represented below to reflect requested/projected funding availability in calendar years. Costs were not inflated in Chapter 4 or in Table 5.2 to allow for comparability between the Wisconsin’s STIP and FIPS project codes.

**Table 5.4 – WisDOT Northwest Region Federal Highway Funding – Superior Urbanized Area**

	2021	2022	2023	2024
Requested*	\$6,695.2	\$4,264.5	\$8,287.2	\$3,275.9
Projected*	\$6,695.2	\$4,273.6	\$8,323.2	\$3,398.7

\* Funds represented in Thousands

Table 5.5 represents the Superior area’s financial plan for funding available in the Superior-Duluth area for transit projects listed in the 2021-2024 Superior Area TIP. The table identifies specific sources of funding that the DTA has determined to be reasonably expected and available during the next four years.

**Table 5.5: Transit Funding Plan: 2021-2024 Superior Area TIP (millions of dollars)**

Source	2021	2022	2023	2024	4 yr Total
FTA	2.330	5.578	3.556	2.600	14.064
FHWA	2.120	.232	0	0	2.352
Federal Total	4.450	5.810	3.556	2.600	16.416
Other (state/local)	18.081	18.949	19.931	19.255	75.216
TOTALS	\$22.531	\$24.759	\$22.487	\$21.855	\$91.632

The MIC has assessed the ability of the DTA to meet their financial commitments with regards to the transit investments being programmed in the TIP while also continuing to fund their ongoing O&M. Table 5.6 shows the DTA’s average annual funding levels based on historical expenditures. Table 5.7 shows the DTA’s total cost by project source and year.

**Table 5.6: Funding for Transit in Recent Years (millions of dollars)**

Expenditure	2016	2017	2018	2019	Annual Avg.
Operations & Maintenance	11.67	14.70	15.80	17.5	14.92

<b>TOTAL</b>	<b>\$1.588</b>	<b>\$1.603</b>	<b>\$1.619</b>	<b>\$1.636</b>	<b>\$6.446</b>	<b>\$1.611</b>

Table 5.8 on the following page, represents the approved federally funded projects slated for development within the Superior Urbanized area. All expenditures have an inflationary increase of 1.78% for years 2022-2024 and projected revenue and inflationary increase of 2.0% for years 2022-2024. Overall, based on past, current and projected years the TIP is determined to be fiscally constrained based on available information.

## Chapter 6: Project Status Updates 2020-2023

The following is a status update on projects listed in the 2020-2023 TIP. Information for this section is up-to-date as of August 2020. Some projects have realized budget changes. These changes have not been reflected in the Estimated Costs columns, but are noted in the Project Status column. For more detailed project status information, contact the sponsoring agency. The *Annual List of Obligated Projects* can be found at [www.dsmic.org](http://www.dsmic.org).

## Chapter 7: Community Impact Assessment

Environmental justice is embodied in Title VI of the 1964 Civil Rights Act and 1994 Executive Order 12898 “Federal Actions to Address Environmental Justice in Minority and Low-Income Populations”. Environmental Justice symbolizes a public policy goal of ensuring that negative affects resulting from government activities do not fall disproportionately on low-income or minority populations. Within the realm of transportation planning, the concept refers to an understanding of the likely economic, social, and environmental impacts of proposed changes to the transportation system. While it is difficult to make significant improvements to transportation systems without causing negative effects of one form or another, the concern of environmental justice is whether proposed projects might disproportionately affect the health or environment of minority or low-income populations. It has become apparent that the impacts on these groups have often been overlooked as potential criteria for project evaluation.

The impacts of transportation projects on specific populations may take many forms, including air or noise pollution, access to opportunities, changes in property values, safety, and aesthetics. When evaluating potential transportation projects under environmental justice, the distributional equity—the incidence of benefits and costs across income levels—resulting from the change in the system would be considered in combination with its economic efficiency. In addition, there would be direct interaction between the targeted populations and the project leaders, thereby fostering an accurate understanding of the likely impacts of the project and of how to evade or mitigate any adverse effects. An analysis of the geographic distribution of low-income and minority populations in the MIC Area helps to highlight the transportation projects that have the greatest need to consider possible impacts under the concept of environmental justice. A TIP projects map is overlaid upon areas identified as exceeding national minority and low income thresholds.

When applying environmental justice considerations, it is necessary to recognize the differences between projects in their scope and in their proximity to the target populations. In addition to concern over projects that are planned near concentrations of the target populations, environmental justice also strives to identify areas with any perceived lack of projects aimed at improving conditions near them. With that understood the following transportation projects abut or are within a portion of an area with concentrations of low-income or minority populations; however none of the projects listed below are projected to have a disproportionately high and adverse human health or environmental effect since the projects are rehabilitation of existing infrastructure or are making safety related improvements to transportation modes.

Low Income Area TIP Project Listing (see map for general location)

- #1 113-14-015 Rail Crossing Road Closure – Garfield Ave, Superior (CY 2021)
- #2 113-16-006 IH535 Blatnik Bridge Painting Maintenance (CY 2022)

## Chapter 8: Public Involvement

The Duluth-Superior Metropolitan Interstate Council encourages and engages the participation of a broad range of interest groups, organizations, governments, and citizens to build consensus for addressing the area's transportation issues. Public involvement in the transportation planning process must be early, continuing, and proactive.

The MIC, committed to being a responsive and participatory agency for regional decision-making, encourages and seeks public comment and participation in the development of the TIP and all other planning projects. The *Public Involvement Plan (PIP)* reaffirms the MIC's commitment to an aggressive, effective public participation process. While some activities outlined in the PIP are more proactive than others, the main objective is to get citizens and those with special interests involved.

### 2021-2024 MIC TIP Public Participation

- Correspondence to agencies seeking calendar year 2024 project requests and other 2021-2023 project activities not listed with the 2020-2023 TIP were sent to representative agencies in July 2020 soliciting candidate multi-modal transportation projects.
- The draft TIP was reviewed and acted upon by the MIC on August 19, 2020 officially releasing the draft document for public comment beginning August 21, 2020. At the August MIC meeting the proposed draft 2021-2024 TIP was reviewed and opportunity for public comment made available to all participants present.
- The 2021-2024 Superior Urbanized TIP was posted to the MIC and NWRPC websites prior to publication of the legal notice officially opening the 30-day public comment period beginning August 21, 2020.
- Legal notice on the 30-day public comment period was published on August 21, 2020 in *The Superior Telegram*. A copy of the public notice and affidavit is included in the appendix.
- Letters were distributed to various state and federal agencies, Tribal Nations, and other local organizations as part of the MIC's consultation and outreach efforts in seeking input regarding the draft TIP. Copies of the letters are included in the appendix.
- A virtual public information meeting was held on September 16, 2020. MIC staff presented a power point of the 2021-2024 TIP and was available to answer questions during the information session.
- Public comments and staff communication to questions related to the draft TIP is summarized and included in the appendix.
- The Transportation Advisory Committee (TAC) is anticipated to consider recommending approval of the 2021-2024 TIP on October 20, 2020. Opportunity

for public comment was made available to all participants present at the TAC meeting. A summary of public comments made at the October 20, 2020 meeting will be included in the appendix.

- The MIC is anticipated to consider recommending approval of the 2021-2024 TIP on October 21, 2020. Opportunity for public comment was made available to all participants present at the MIC meeting. A summary of public comments made at the October 21, 2020 meeting will be included in the appendix.

# **Appendix I**

## **TIP Amendment Process**

**A. Annual TIP Development and Approval Process**

**Staff Actions**

1. Administer TIP project solicitation process with eligible jurisdictions.
2. Develop the Draft TIP document and present it to MIC and TAC for their approval to release the plan for the required 30-day public comment period.
3. Publish legal notice and public meeting ad and release Draft TIP for 30-day public comment period.
4. Make Draft Plan available to the public in print and electronic (pdf) formats at the following locations:
  - a. NWRPC & MIC websites (pdf)
  - b. NWRPC & MIC/ARDC offices (printed copy)
  - c. Printed copies will also be provided upon request.
5. Publicize and hold a public meeting during the 30-day comment period.
6. Conduct consultation with state and federal agencies prior to the end of the 30-day comment period, to review projects and take comments on the Draft document;
7. Present Final TIP to MIC and TAC for approval.
8. Make the final TIP document available to the public in both hard copy (printed) and electronic (pdf) formats at the following locations:
  - a. NWRPC & MIC websites (pdf)
  - b. NWRPC & MIC/ARDC offices (hard copy)
  - c. Copies will also be provided upon request.

9. Conduct a Review of Public Involvement Activities

- a. Quantify and analyze their effectiveness for use during next TIP cycle.

**B. TIP Amendment Procedures**

For the current Superior Metro TIP, any changes proposed to listed projects will lead to one of three outcomes:

- I. Administrative Modification
- II. Minor Amendment
- III. Major Amendment

For all outcomes, the amended TIP must remain fiscally constrained within the revenues that can reasonably be expected to be available.

The following criteria and procedures will be followed when reviewing a project change in the TIP and determining the appropriate action:

**I. Administrative Modification Procedures**

**Criteria**

An Administrative Modification to the TIP is appropriate if project changes meet all of the following criteria:

- Modification does NOT trigger a re-determination of fiscal constraint.
- A minor change in project/project phase costs does not exceed 10 percent (10%) of the total federal funding programmed for the calendar year within the Superior metropolitan area as represented in the TIP for the calendar year, or \$1,000,000.
- A minor change in project/project phase initiation dates.
- Changes in scope (character of work or project limits)

while remaining reasonably consistent with the approved project.

- A minor change in funding sources of previously included projects such as changing the source of funding category (IM, NHS, STP, earmarks); or amount of federal funding for a project without changing the scope of work or schedule for the project or any project within the TIP.

#### Staff Actions

After it has been determined that an Administrative Modification to the TIP is necessary, the answers to the following six questions will guide the next steps to be taken:

1. Is a formal public comment period required? **No**
2. Is a new Community Impact/Environmental Justice analysis required for this TIP project? **No**
3. Is formal action necessary by the MIC Policy Board? **No**
4. Will public involvement occur? **Yes** - through the regular MIC and TAC meeting processes:
  - a. Provide advance notice of the proposed changes to the TIP project by including a description in the 'Project Updates' section of the published Agenda;
  - b. Present any comments received to the MIC board and include them in the published Meeting Summary;
  - c. Include the description of the proposed changes to the TIP project in the published Meeting Summary.
5. Will project lists be updated and made available to the public, and both electronic and hard copies provided upon request? **Yes** - Updated project lists will be found at the following locations:

- a. NWRPC & MIC websites (pdf)
  - b. NWRPC & MIC/ARDC offices (hard copy)
6. Will correspondence about the project change be transmitted to WisDOT and FHWA/FTA? **Yes**, after TAC and MIC meetings have occurred.

## II. Minor Amendment Procedures

### Criteria

A Minor Amendment to the TIP is necessary if project changes meet **any** of the following criteria:

- Adding an exempt/preservation (reconditioning, reconstruction, or rehabilitation) project to the first four years of the TIP, including advancing a project for implementation from an illustrative list or from the out-years of the TIP.
- Moving an exempt/preservation project out of the TIP.
- Changing the scope (character of work or project limits) of an exempt/preservation project within the first four years of the TIP such that the original project description is no longer reasonably accurate.
- Changing project funding such that the change impacts the funding for other projects within the first four years of the TIP, forcing a project out of the four-year window.
- Changing project/project phase costs, that are under 10 percent of the total Federal funding programmed for the calendar year within the Superior Urbanized area as represented in the TIP for the calendar year, or \$1,000,000 and did not meet the criteria for Administrative Modification.

### Staff Actions

After it has been determined that a Minor Amendment to the TIP is necessary, the answers to the following six questions will guide the next steps to be taken:

1. Is a formal public comment period required? **No**
2. Is a new Community Impact/Environmental Justice analysis required for this TIP project? **No**
3. Is formal action necessary by the MIC Policy Board?  
Yes – Present the Amendment for approval at TAC and MIC meetings:  
List the proposed Amendment as a voting item on the published Agenda for meetings of both the MIC Policy Board and the Transportation Advisory Committee (TAC) and prepare a Resolution for signature by the MIC Board chair.

4. Will public involvement occur?: **Yes** - through the regular MIC and TAC meeting processes:

- a. Provide advance notice of the proposed changes to the TIP project by listing “Opportunity for Public Comment” on the published Meeting Notice and by including the Amendment as a voting item on the published Agenda, at least one week prior to the scheduled action on the Amendment;
- b. Include a description in the accompanying meeting materials of the proposed changes to the TIP project, as well as a copy of the proposed Amendment, for public review;
- c. Present any comments received to the MIC Board and include them in the published Meeting Summary;

- d. Include a description of the proposed changes to the TIP project, as well as the result of the MIC Board vote on the Amendment, in the published Meeting Summary.
5. Will the project lists be updated and made available to the public, and both electronic and hard copies provided upon request? **Yes** - Copies of all Amendments and updated project lists will be found at the following locations:
  - a. NWRPC & MIC websites (pdf)
  - b. NWRPC & MIC/ARDC offices (hard copy)
6. Will correspondence about the approved project change, including a copy of the signed Resolution, be transmitted to WisDOT and FHWA/FTA? **Yes**, after proposed project change has been approved by the TAC and MIC.

### III. Major Amendment Procedures

#### Criteria

A Major Amendment to the TIP is necessary if project changes meet **any** of the following criteria:

- Adding a nonexempt/capacity expansion project to the first four years of the TIP, including advancing a project for implementation from an illustrative list or from the out-years of the TIP.
- Moving a nonexempt/capacity expansion project out of the first four years of the TIP.
- Change in scope (character of work or project limits) of a nonexempt/capacity expansion project within the first four years of the TIP such that the original project description is no longer reasonably accurate.

- Adding or deleting any project that exceeds the lesser of:
  - a. 10% of the total Federal funding programmed for the calendar year, or
  - b. \$1,000,000.

**Staff Actions**

After it has been determined that a Major Amendment to the TIP is necessary, the answers to the following six questions will guide the next steps to be taken:

1. Is a formal public comment period required? **Yes**
2. Is a new Community Impact/Environmental Justice analysis required for this TIP project? **Yes**
3. Is formal action necessary by the MIC Policy Board?  
**Yes** – Present the Amendment for approval at TAC and MIC meetings:

- a. List the proposed Amendment as a voting item on the published Agenda for meetings of both the MIC Policy Board and the Transportation Advisory Committee (TAC) and prepare a Resolution for signature by the MIC Board chair.

4. Will public involvement occur?: **Yes** - Public involvement will include at least two (2) methods of advance public notice to occur prior to the scheduled action on the Amendment, as follows:

- a. Through the regular MIC and TAC meeting processes:
  - i. Provide advance notice of the proposed changes to the TIP project by listing “Opportunity for Public Comment” in the published Meeting Notice and by including the Amendment as a voting item on the published Agenda at least one week prior to

- the scheduled action on the Amendment;
- ii. Include a description in the accompanying meeting materials of the proposed changes to the TIP project, as well as a copy of the proposed Amendment, for public review;

- iii. Present any comments received to the MIC board and include them in the published Meeting Summary;

- iv. Include a description of the proposed changes to TIP project, as well as the result of the MIC Board vote on the Amendment, in the published Meeting Summary.

- b. Additional public involvement techniques include:

- i. Utilizing the MIC’s social media outlets (OpenMIC blog, Facebook page) to explain the proposed amendment and solicit public comment.
- ii. Publishing a legal notice in the local newspaper.

5. Will the project lists be updated and made available to the public, and both electronic and hard copies provided upon request? **Yes** - Copies of all Amendments and updated project lists will be found at the following locations:

- a. NWRPC & MIC websites (pdf)
- b. NWRPC & MIC/ARDC offices (hard copy)

6. Will correspondence about the approved project change, including a copy of the signed Resolution, be transmitted to WisDOT and FHWA/FTA? **Yes**, after proposed project change has been approved by the TAC and MIC.

**NOTICE OF 30-DAY PUBLIC COMMENT PERIOD**

**Draft 2021-2024 Transportation Improvement Program for the Superior Metropolitan Area**

The Duluth-Superior Metropolitan Interstate Council (MIC), has prepared a Draft Calendar Year 2021-2024 Transportation Improvement Program (TIP) for the Superior Metropolitan Area. The Draft TIP lists all transportation projects in the Superior greater metropolitan area that are recommended by the MIC Board to receive federal transportation funds for CY 2021-2024.

To view the Draft TIP online, visit [www.dsmic.org/superior2024](http://www.dsmic.org/superior2024).

Public comments are being taken from August 21 through September 20, 2020 on the Draft TIP and its proposed projects. To request a hard copy of the document, contact Sheldon Johnson, who is taking all public comments on the document, at [sjohnson@nwrpc.com](mailto:sjohnson@nwrpc.com) or (715) 635-2197. Comments and questions are welcomed for the duration of the public comment period.

A public informational session will be held on Wednesday, September 16, 2020 from 12:00pm - 1:00pm to review the proposed projects, answer questions and take comments. For the protection of the community, this meeting will be held online and by telephone during the current COVID-19 State of Emergency. Public access and public comment opportunities will be provided in keeping with open meeting requirements allowing the use of communications media technology such as telephone and video conferencing. Login and call-in information can be viewed on the TIP web page at [www.dsmic.org/superior2024](http://www.dsmic.org/superior2024).

The Draft TIP, along with all comments received, will be considered for final approval at the MIC Board meeting on October 21, 2020. The final version of the 2021-2024 TIP will list all transportation projects that have been planned and programmed for federal funding within the greater Superior, WI area for those four years.

Public comment is solicited for a 30-day period in accordance with the MIC's Public Involvement Plan for this Draft, as well as for the final TIP upon introduction of a major amendment. The MIC's public participation process satisfies the Duluth Transit Authority's public participation requirements for the program of projects.

The Duluth-Superior Metropolitan Interstate Council (MIC) has approved the release of the draft 2021-2024 Superior Urbanized Area Transportation Improvement Program. Beginning August 21, 2020 a formal 30-day public comment period will begin for individuals, agencies, organizations, etc. to provide any comments related to the activities identified in the Transportation Improvement Program (TIP).

The TIP represents a listing of federal and state transportation projects within the City of Superior; Villages of Oliver and Superior; and the Towns of Lakeside, Parkland, and Superior. You are receiving this letter as part of the MIC's consultation and outreach efforts seeking input regarding the 2021-2024 draft Superior Urbanized Area TIP. The document can be found at [www.dsmic.org](http://www.dsmic.org) and [www.nwrpc.com](http://www.nwrpc.com). A virtual public meeting will be held September 16, 2020 from 12:00pm-1:00pm via Microsoft Teams with details for the virtual meeting found at [www.dsmic.org](http://www.dsmic.org).

The 2021-2024 Superior Urbanized Area Transportation Improvement Program will be presented to the MIC on Wednesday, October 21, 2020 for approval. In addition to your written, phone, or email input, comments may also be presented at the October MIC Board meeting. Due to COVID-19 concerns, the meeting will be held virtually on October 21<sup>st</sup> beginning at 4:00pm. I encourage you to check the MIC website, [www.dsmic.org](http://www.dsmic.org) for additional details regarding virtual or in person arrangements.

If you have any comments or questions, please contact me at 715-635-2197, by email at [sjohnson@nwrpc.com](mailto:sjohnson@nwrpc.com), or by mail at 1400 S. River Street, Spooner WI 54801.

Sincerely,

Sheldon Johnson

## **Appendix IV**

# **Public Comments and Communication**

## Public Comments made to the Draft 2021-2024 TIP

Letters were distributed to various state and federal agencies, Tribal Nations, and other local organizations as part of the MIC's consultation and outreach efforts in seeking input regarding the draft TIP. Additionally, a virtual public information meeting was held on September 16, 2020. MIC staff presented a power point of the 2021-2024 TIP and was available to answer questions during the information session. Below is a summary of comments received during the consultation and public comment period.

- WisDOT released 2021 Safety Performance Measure Targets on August 31, 2020 for inclusion into upcoming TIP documents.
  - MIC staff added the 2021 Safety Performance Measure Targets to the final adopted 2021-2024 TIP.
- WisDOT identified the Transit Asset Management (TAM) targets were referencing 2018.
  - Consultation with the local transit agency was executed and 2021 TAM targets are included in the 2021-2024 TIP.
- FTA requested the 2021-2024 TIP include current or previous year performance metric data for the TAM targets.
  - In consultation with the local transit agency, previous year performance metric data was included in the TIP.
- A citizen provided an email expressing concern that a replacement or reconstruction/reopening of County Trunk Highway W over the Nemadji River Bridge is not addressed in the TIP. The bridge was damaged during recent flooding in the county.
  - No changes were made to the TIP document.

# RESOLUTION 20-13

## OF THE

### DULUTH-SUPERIOR METROPOLITAN INTERSTATE COUNCIL

*Adopting the 2021 - 2024 Wisconsin Transportation Improvement Program for the Superior Urbanized Area*

**WHEREAS**, the Duluth-Superior Metropolitan Interstate Council was created by the Arrowhead Regional Development Commission (ARDC) and the Northwest Regional Planning Commission (NWRPC) as the urban planning policy body and designated Metropolitan Planning Organization (MPO) with responsibility for performing urban transportation planning and is recognized by Minnesota and Wisconsin Governors, and

**WHEREAS**, the Metropolitan Interstate Council has established a comprehensive, cooperative, and continuing (3-C) transportation planning process to develop the unified planning work program, a Long Range Transportation Plan, and a Transportation Improvement Program to facilitate federal funding for communities, counties, and transit operators, and to provide technical assistance and expertise to transportation interests; and

**WHEREAS**, U.S. Department of Transportation regulations require the development and annual approval of a Transportation Improvement Program (TIP) for each urbanized area by the Metropolitan Planning Organization in cooperation with local elected and appointed highway and transit officials; special interest and service organizations, including users of public transit; the Wisconsin Department of Transportation; U.S. DOT; Federal Highway and Transit Administrations; and

**WHEREAS**, projects must be included in the TIP which utilize the following U.S. Department of Transportation program funds under the Fixing America's Surface Transportation Act (FAST Act), Interstate System, National Highway System, Surface Transportation Program, Federal Bridge, Federal Transit Administration Capital and Operating Assistance; and

**WHEREAS**, the CY 2021-2024 TIP is an implementation of *Sustainable Choices 2045*, the Duluth-Superior Long Range Transportation Plan and is fiscally constrained; and

**WHEREAS**, U.S. Department of Transportation regulations provide for self-certification that the urban transportation planning process is being carried out in conformance with all applicable requirements of:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- (2) In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color or national origin in employment or business opportunity;
- (5) Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

**WHEREAS**, the Metropolitan Interstate Council has solicited a 30-day public comment period on the Draft CY 2021-2024 TIP and any public comments received are documented in the TIP document.

**NOW, THEREFORE, BE IT RESOLVED**, in accordance with 23 CFR 450.334, the Metropolitan Interstate Council hereby certifies that the metropolitan planning process is addressing major issues facing the metropolitan planning area and is being conducted in accordance with all applicable requirements as described above.
