Are you ready to explore the St. Louis River Estuary National Water Trail?

Habitat restoration & sediment remediation are underway at these **St. Louis River Area of Concern** sites. You can help these projects succeed:

- ❖ **Avoid** construction equipment
- ❖ **Protect** native vegetation
- ❖ **Protect** underwater structures & the river bed

Be safe: watch for low clearance at causeways, culverts, & power lines.

2/23/23

For more information or to request a project tour or presentation, please contact one of these AOC Coordinators:

Melissa Sjolund
 218-302-3245
melissa.sjolund@state.mn.us

Barb Huberty
 218-302-6630
Barbara.Huberty@state.mn.us

Primary AOC funding support is provided by the Great Lakes Restoration Initiative, with oversight by the U.S. Environmental Protection Agency.
