

**Amendment #3 to the 2026-2029 Duluth Area TIP**

Presented for Approval December 10, 2025

State Project ID #118-156-012CRP, 118-115-009, and 118-155-009CRP (2026)

**Revised project descriptions for the Campus Connector trail project to remove the construction of a pedestrian bridge over Tischer Creek, with no change to the project’s funding or total cost.**

The City of Duluth has requested that the words “and construct Tischer Creek pedestrian bridge, New BR#R0950” be removed from the project descriptions for the 2026 Campus Connector Trail project. This change affects three related project listings: 118-156-012CRP, 118-115-009, and 118-155-009CRP.

Because the original bridge location is in a flood-prone area, the city determined that construction costs would be prohibitively high.

Segment 4 of the Campus Connector Trail will still be built—but instead of crossing over Tischer Creek, the route will now follow West St. Marie Street to the corner of University Drive, with no change to the project’s funding or total cost.

The **updated project descriptions for all three lines in Amendment #3** are shown in the current Duluth TIP tables as follows:

Current Planned Year	State Project ID	Agency	Route System	Est. Length (Miles)	Type of Work	Technical Project Description	Type of Funds	Fed \$ (Non-AC)	Other \$	Project Total \$ (MPO Total)
2026	118-156-012CRP	Duluth	Campus Connector Trail	0.4	BIKE/PED	**CRP**: IN DULUTH RECONSTRUCT MSAS 155 (COLLEGE ST.) AND CONSTRUCT CAMPUS CONNECTOR SEGMENT 4 FROM MSAS 154 (19TH AVE. E.) *Based on the criteria adopted in the 2021 MIC Public Involvement Plan, these changes to programmed projects require a formal TIP Amendment, including the opportunity for public comment and approval by the MIC Policy Board.*

*The TIP will remain fiscally constrained within the revenues that can reasonably be expected to be available.*
